

Peace Matrix

What steps can contribute to security and cooperation in Europe? It's complicated. In addition to ending fighting on the battlefield, progress needs to be made on at least three levels: between the US and Russia; between the EU and Russia and between Ukraine and Russia. At all three levels, issues to consider include de-escalation mechanisms, sovereignty of Ukraine and the European security order. This matrix provides an overview of what needs to be done.

Difficulty of goal

- blue: already achieved
- yellow: medium
- orange: more difficult
- red: most difficult
